Go to "Appearance and Personalization", then select "File Explorer Options". Note: If the pop-up mentions the Java application, Viewlet Builder and JAWA.EXE this can refer to any number of programs running on your PC. You can find the program with the name "Questionmark Secure Browser" or by Publisher "Questionmark Computing Ltd". How can I uninstall Questionmark Secure? Once it is running, the only way that you can access other programs is to exit Questionmark Secure or to turn off or reset your computer. GoToMeeting, Java, Snagit and Viewlet Builder. It will open by itself. Questionmark Secure is a locked-down browser designed to provide a secure environment in which to deliver high stakes assessments such as tests and exams. Include the most recent ones when you reply: Open Windows Explorer If Hidden Files and Folders are not enabled, follow the below to enable: Right-click on the "Start" menu, then select "Control Panel". If your PC is provided by an employer, we recommend speaking to your internal help desk for assistance. Then run the installer on your machine to install Adobe Digital Editions. Note: These are the only supported operating systems for Questionmark Secure. Then right-click on the Trash icon in the Dock and select Empty Trash.iPad: Press and hold the app's icon until all of the icons on the screen start to wiggle. Follow the steps below depending on the Operating System you used:Windows: Open the Control Panel, go to Programs and select "Uninstall a program". Your exam provider may have configured the assessment without an exit button after the assessment is completed. Make sure pop-ups are enabled in your browser before starting your exam. RStudio is a set of integrated tools designed to help you be more productive with R. Before your assessment Once installed, you do not need to open Questionmark Secure to start your exam. In this case, you will need to turn off/reset your computer. Select the program, and click the "Uninstall" button.Mac: Drag the "Questionmark Secure for Mac" icon from the Applications folder to the Trash or right-click on the icon in the Applications folder and click Move to Trash. Click the "x" which appears on the "Questionmark Secure for iPad" icon. Press "Delete" to confirm that you want to uninstall the app. Close the following programs: MS Outlook, Skype (Lync), MS Teams, GoToMeeting Do not use VPN or other proxy software. In Window Explorer, navigate to C:\Users\YOURUSERNAME\AppData\Roaming\qms logs which is where you will find the logfiles. I have been asked to provide logfiles. Locate your preferred platform and click on it to download the installer. If you need further assistance, please contact us at support@questionmark.com. After you have taken your assessment, you may wish to uninstall Questionmark Secure. Your exam provider wants you to take an assessment with Questionmark Secure. How do I do that? If you have not found a solution to your issue, please reach out to Questionmark support at support@questionmark.com Chromebooks OS and Linux are not supported. If you are experiencing issues with the installation or starting your assessment, you may find the answer in the Frequently Asked Questions. When I start my assessment, I get an error message saying "Questionmark Secure has stopped working". Please make sure you have a stable network connection. Please follow the instructions below to obtain the logfiles. These are the common applications which must be closed before you start the exam, however you will be prompted if other applications need to be closed. For information on the Adobe Digital Editions' privacy policy, see here; for information on the general Adobe privacy policy, see here. This pop-up appears when you are trying to open Questionmark Secure directly. What should I do and why do I need to do this? Please make sure your computer has all available Operating System updates installed. I have another question which is not covered here. Scroll down until you see the "Hidden files and folders" setting, and change to "Show hidden files, folders and drives". I receive a pop-up telling me to close certain applications. Installing Questionmark Secure Version information Latest version for Questionmark Secure for Windows is 6.1.27.1 Improved security Improved video playback Details for Mac, iPhone and iPad users can be found on the app store. The app will be deleted. Download Digital Edition 4.5.11 Macintosh (22MB) Download Digital Edition 4.5.11 Windows (8.24MB) Seamless fulfillment of books across devices: With ADE 4.5.11, when a consumer fulfills a book on one device, the book will be automatically downloaded to all the other devices that belong to this consumer (activated using the same user ID). Close the applications which are listed and relaunch your assessment. You can easily install this software using one of the links below. This is most likely because your computer is lacking some prerequisite. Simply go to where your assessment is located, and when you start your assessment, the browser will open automatically. You cannot use it to navigate to or start your assessment. Questionmark Secure is designed so that it will not run whilst certain other applications are also running. What do I need to do? As mentioned above, the Questionmark Secure browser is not designed to run on its own. Click the "View" tab. When I start my assessment, nothing happens at all, and I don't get any pop-ups. FAQ I already have Questionmark Secure and I'm getting a pop-up requiring a .qmsb file. It includes a console, syntax-highlighting editor that supports direct code execution, and a variety of robust tools for plotting, viewing history, debugging and managing your workspace.
